## WORK EXPERIENCE

### Web Developer Intern

#### DonationXchange

📅 July 2021 – current

📍 Chicago, IL

- Engaged in web creative design and development. Worked on 30+ projects.
- Assisted in product development and enhancements of current suite to boost engagement by 15%.
- Provided technical support for **10+ existing online products**.

## PROJECTS

### Harvestify

#### Full-Stack Developer | Thesis Project

- Designed and developed **Harvestify**, a web-based Agri-Marketplace platform supporting small-scale farmers and traders in Davao Oriental.
- Aimed to eliminate middlemen and improve market access, profitability, and transparency in agricultural trade through direct farmer-to-trader transactions.
- Implemented key features including user authentication, digital product catalogs, dynamic pricing, harvest scheduling, real-time messaging with Socket.io, dispute resolution, and multilingual interface using i18next.
- Built using React.js, Redux, Node.js, Express, Socket.io, i18next, and RESTful APIs, delivering a scalable and responsive full-stack solution tailored for the local agriculture sector.

### Farm-Future

#### Full-Stack Developer

- **Developed front-end user experience** using React.JS, Redux, and RESTful APIs.
- **Allowed users to have a customized experience** based on the mood of the user throughout the entire experience of the application.
- Built app with React while managing State through Asynchronous.
- Implemented the React Router DOM to allow nested RESTful routing.
