WORK EXPERIENCE

Web Development & IT Support Intern

SPLACE

📅 July 2025 - July 2025   📍 Davao City, Philippines

- Designed and developed web-based solutions, including an HR rating system
- Supported IT infrastructure through software troubleshooting, hardware maintenance, and production team assistance
- Delivered technical aid for operations like cable management, lead mining, and system reformatting
- Oversaw lead distribution as Vici Controller for optimized workflow.

PROJECTS

Harvestify

Full-Stack Developer | Thesis Project

- Designed and developed ***Harvestify***, a web-based Agri-Marketplace platform supporting small-scale farmers and traders in Davao Oriental.
- Implemented secure **two-factor authentication (2FA)** using **Speakeasy** and **Passport**, enabling seamless integration with authenticator apps.
- Delivered **real-time messaging** and dispute resolution via **Socket.io**, built **interactive dashboards** and analytics tools using **ApexCharts** and **Chart.js**, and established **multilingual support** (English, Tagalog) through **i18next** to foster inclusive, transparent, and data-driven user experiences.
- Built using **React.js, Redux, Node.js**, **Express, Socket.io, i18next**, and **RESTful APIs**, delivering a scalable and responsive full-stack solution tailored for the local agriculture sector.

FarmFuture

Full-Stack Developer

- Built a **Progressive Web App (PWA)** for real-time and historical crop-price data with automated alerts.
- Developed **interactive dashboards** using **Chart.js** and **ApexCharts** for actionable insights.
- Implemented **live messagi**ng via **Socket.io**, with optimized backend using **Express**, **Node.js, React**, **Redux**, and **RESTful APIs**.

CAREER OBJECTIVE

Entry-level Web Developer skilled in JavaScript, React.js, and Node.js, passionate about crafting intuitive, user-centric web applications. Adept at diagnosing and resolving complex bugs, optimizing interactive features, and implementing robust authentication workflows. Collaborative and agile-minded, committed to continuous learning and delivering scalable, accessible solutions that empower end users.
